WORK EXPERIENCE

Full Stack Web Developer

Softesta LTD

📅 April 2023   📍 Mersin, Turkey

I Worked Several Months On A Turkish Company As A Part Time Remote Full Stack Web Developer.
During this period, I worked on two projects : **Mobile app** as a developer in rest api and a **Multi-Tenancy system** project .

Full Stack Web Developer

Sahlaah

📅 January 2024   📍 red sea, Egypt

I Worked Several Months also On An Egyptian Company As a Freelancer per project Full Stack Web Developer.
During this period, I worked on some projects : **Ecommerce System** and a **courses platform** with laravel and vue js .

MY PROJECTS

Ecommerce Website

Url : Cekwt

An advanced e-commerce system built with Laravel, ensuring high code quality. My role was to integrate the MyFatoorah payment gateway as a modular plugin, similar to WordPress. I introduced a feature for direct user redirection to specific payment methods, such as KNET, Visa/MasterCard, or Apple Pay .

Tools :   PHP Laravel   MySql   Myfatoorah Api
Educational academy website

Url : Vesmena

A website I co-developed for an educational academy based in Saudi Arabia. The site was built entirely in Laravel.

Tools: PHP Laravel   MySql   Bootstrap   Ajax

SKILLS

Html   Css   JavaScript   Bootstrap   Jquery   Saas & Less   PHP   MySql   Laravel   Livewire   Filament   VueJs   Vuex   git & Github   Ajax   API

SOFT SKILLS

Problem Solving   Responsibility   Flexibility   Team Work   Fast Self Learning

ACHIEVEMENTS

i'm a competitive programmer

I Have Earned 466 Points In **Hackerrank.com** Problem Solving Section , And I got the silver level . And I'm still going .

My account :   HackerRank/MohammedAmine

EDUCATION

License - Faculty Of Law

Mohammed Mentouri Constantine

📅 Oct 2016 – Sept 2019

Commercial ERP System

Url : Jazeel

A comprehensive and professional ERP system designed to meet all
the needs of merchants, including invoicing, sales, and reporting.
My role in this system was to implement a feature for printing
a detailed invoice for each product on a separate page, correct
language errors in the invoice, and enhance its design for a better
user experience.

Tools: PHP Laravel   MySql   Css
